Brand New Book ***** Print on Demand *****.Africa is predicted to be the next China in the coming decade, but how many know Cameroon is the miniature Africa ? It is a rich, big, beautiful, and peaceful land. So many challenges face each country of the continent in order to see the real change that Africans have been looking for in the past years for their development. The developed world and several leaders are actually determined to help poor countries. France, China, the United States, the World Bank, IMF, the European Union, Forbes Philanthropists, and others are working together to tackle important issues such as agriculture, roads, infrastructure, hospitals, medicine, water development, and eternal problem facing most countries there-security. French President Francois Hollande met with all African leaders on December 7, 2013, in Paris to resolve the issue. In any African country, people cannot have a better life they are expecting if peace is not given a chance. It is not a choice, but a must, and this is the concern of African leaders, religious leaders, organization, and people in general. Then will come the big time for Africa: real freedom with more educated people who live healthy and happy in total liberty. It was the thought of one of the most peaceful men, President Nelson Mandela, and it is the equivalent thinking above democracy and development of the peacemaker ever in Cameroon President Paul Biya! It is a pleasure and honor to present Leadership for the 21st Century: The Secrets and Seven Keys to Success of Paul Biya.
